Research & Development

BKRS has strong and innovative Research and Development (R&D) centre where our dedicated professionals have been striving relentlessly to make significant breakthroughs in the development of various formulations. From these centres research is continuously ongoing for the development and marketing of additional products. Many of the other products under development in R&D are likely to go off patent in Europe and America which will substantially increase export sales over the next few years.

Quality Policy:

Quality is customer driven and not merely a departmental obligation. To ensure the total Quality Management, Company **BKRS PHARMA** imparts special training to its employees for Quality Assurance Checks while manufacturing and packaging of the export orders online. The QA department strictly follows all the recommendations specified in US Pharmacopeia, British Pharmacopeia, Russian Pharmacopeia and Indian Pharmacopeia for Raw material checks, in-process checks, and finished goods testing. Raw materials are accepted for manufacturing only after found to be a pharmacopeial grade by the QA & QC Professionals of our company.

BKRS PHARMA reiterates its commitment to quality and strives to produce and market high quality medicines time to time.
